

BARIS ASKIN

✉ baskin@andrew.cmu.edu ◇ (+1) 412 816 6980 ◇  [Google Scholar](#)

EDUCATION

Carnegie Mellon University, Pittsburgh, USA

Ph.D. in Electrical and Computer Engineering

Advisors: [Dr. Gauri Joshi](#) & [Dr. Carlee Joe-Wong](#)

August 2022 - June 2027 (Anticipated)

GPA: 4.0/4.0

Bilkent University, Ankara, Turkey

B.Sc. in Electrical and Electronics Engineering

Valedictorian

Highest Ranked Graduate of 2022 in the Faculty of Engineering

September 2017 - June 2022

CGPA: 3.99/4.0

RESEARCH INTERESTS

Federated Learning, Distributed Optimization, Machine Learning

WORK & RESEARCH EXPERIENCE

Graduate Researcher

Carnegie Mellon University, Pittsburgh, PA

September 2022 – Present

- Working on client scheduling mechanisms for asynchronous federated learning (FL) with theoretical guarantees.
- Working on time and resource-efficient algorithms for multi-model FL with convergence guarantees.

Undergraduate Researcher

[Imaging and Computational Neuroscience Lab](#), Bilkent University, Ankara, Turkey

September 2020 – July 2022

- Worked on deep learning techniques for medical imaging under the supervision of [Dr. Tolga Cukur](#).
- Worked on super-resolution of Magnetic Particle Imaging (MPI) System Matrices with deep learning methods to accelerate the calibration process.
- Worked on learning-based image reconstruction techniques for MPI. Proposed the first deep plug-and-play priors-based method for MPI reconstruction.

Summer Intern

ASELSAN Research Center (Sensors and Imaging Technologies), Ankara, Turkey

June 2021 – July 2021

- Worked on novel deep learning models for the super-resolution of MPI system matrices under the supervision of [Dr. Alper Güngör](#).
- Proposed new deep learning-based methods to accelerate the calibration process.

Summer Intern

TÜBİTAK Advanced Technologies Research Institute, Ankara, Turkey

June 2020 – July 2020

- Worked on radar pulse detection and modulation classification project for Electronic Warfare.
- Implemented a simulation using signal processing, image processing, and deep learning techniques.

RELEVANT COURSES

CMU

Advanced Introduction to Machine Learning, Convex Optimization, Intermediate Statistics, ABCDE of Statistical Methods in Machine Learning, Machine Learning with Large Datasets, Fundamentals of MDPs and Reinforcement Learning

Bilkent University

Linear Algebra, Statistical Learning and Data Analytics, Stochastic Models, Probability and Statistics, Signals and Systems, Computer Networks, Differential Equations, Digital Signal Processing, Telecommunications

SKILLS

Languages	Python, MATLAB, Java, Assembly, VHDL
Frameworks	PyTorch, TensorFlow, OpenCV, Apache Spark

PROFESSIONAL SERVICES

- Reviewer for NeurIPS 2023, ICLR 2024, AISTATS 2024, ISIT 2024, and ICML 2024.
- Teaching Assistant for Introduction to Machine Learning for Engineers (18-661) in Spring 2024

PUBLICATIONS

1. Federated Asynchronous Simultaneous Training

B. Askin, P. Sharma G. Joshi, C. Joe-Wong
(Under submission)

Studies on deep learning applications in medical imaging while I was at Bilkent:

2. DEQ-MPI: A Deep Equilibrium Reconstruction with Learned Consistency for Magnetic Particle Imaging

A. Güngör, **B. Askin**, D. A. Soydan, C. B. Top, E. U. Saritas and T. Çukur
IEEE Transactions on Medical Imaging, Aug. 2023 [[Link](#)][[Code](#)]

3. A Denoiser Scaling Technique for Plug-and-Play MPI Reconstruction

A. Güngör, **B. Askin**, D. A. Soydan, E. U. Saritas, C. B. Top and T. Çukur
International Journal on Magnetic Particle Imaging (IJMPI), Vol 9 No 1 Suppl 1, Mar. 2023 [[Link](#)]

4. PP-MPI: A Deep Plug-and-Play Prior for Magnetic Particle Imaging Reconstruction

B. Askin, A. Güngör, D. A. Soydan, E. U. Saritas, C. B. Top and T. Çukur
International Workshop on Machine Learning for Medical Image Reconstruction (MLMIR), 2022 [[Link](#)]

5. TranSMS: Transformers for Super-Resolution Calibration in Magnetic Particle Imaging

A. Güngör, **B. Askin**, D. A. Soydan, E. U. Saritas, C. B. Top and T. Çukur
IEEE Transactions on Medical Imaging, July 2022 [[Link](#)][[Code](#)]

6. Deep Learned Super Resolution of System Matrices for Magnetic Particle Imaging

A. Güngör, **B. Askin**, D. A. Soydan, C. B. Top and T. Çukur
2021 43rd Annual International Conference of the IEEE Engineering in Medicine & Biology Society (EMBC), 2021 [[Link](#)]

7. A CNN Based Super-Resolution Technique for Magnetic Particle Imaging System Matrix

B. Askin, A. Güngör, D. A. Soydan, C. B. Top and T. Çukur
2021 29th Signal Processing and Communications Applications Conference (SIU), 2021 [[Link](#)]

SELECTED AWARDS AND ADDITIONAL INFORMATION

- 2023-2024 Ben Cook Presidential Graduate Fellowship in Electrical & Computer Engineering at CMU
- Bilkent University Comprehensive Scholarship: Full tuition waiver & stipend during the B.Sc. Program.
- Scholarship of Turkish Ministry of Youth and Sports: Awarded stipend during the B.Sc. Program.
- Ranked 3rd in Academic Personnel and Postgraduate Education Entrance Exam (ALES) among 104 thousand applicants in Turkey.
- Ranked 252nd in Nationwide University Entrance Exam (LYS) among 2 million students in Turkey.
- Volunteer at Young Guru Academy (an international NGO based in İstanbul) from 2018 to 2020.
- Vice President at CMU Turkish Student Society since 2022.
